

Course Name :

Elevator Training

DESCRIPTION :

About :

- 1 - General and suspension types
- 2 - Technical description
- 3 - control panel
- 4 - Brake system and rectifier system
- 5 - Circuit diagram

Course format :

* theoretical

What you will learn :

- 1 - General and suspension types
- 2 - Technical description
- 3 - control panel
- 4 - Brake system and rectifier system
- 5 - Circuit diagram

Who should attend :

- * Electric engineer (power- communication)
- * Mechanical engineer

PREREQUISITES : participants should have prior knowledge of :

- * He has already worked in the field

OVERVIEW :

Elevator_

DURATION : 20 hours / 5 Days

LEVEL : 1

LANGUAGE INSTRUCTION : English / Arabic
